CREATOR AND CREDIBILITY

Created and instructed by **Dennis Benigno**. Benigno has over **17 years of Law Enforcement experience** as a Corrections Officer, Police Officer in Washington D.C., and municipal police officer in the State of NJ. Benigno, a pro-active police officer, developed this course after recognizing the need for a class that can offer specific training for all police officers in pro-active and overall police knowledge. First offered in 2012 this training has reached over 4,000 police officers nationally.

CONTENT OF COURSE COVERED

Not your same old boring case law class! This is a one day seminar derived from a course presented Street Cop Training that has reached over 4000 Police Officers in 5 years. The student will learn past and present case law specifically to NJ. This knowledge will give any police officer from Rookie to Veteran the ability to make more informed decisions in a variety of different circumstances that police officers face on a frequent basis. We have selected the cases that are paramount for every police officer to be familiar with and will explain them in a comprehensive practical way. When we know what we are supposed to do legally we do our jobs more professionally and with more confidence.

Knowledge is power, and if there has been any confusion on how case law and 2C law applies to our profession this course will clear that up. Everything in this course was taken from existing NJ law journals and manuals. The student will be given all the sources from where the material for this course was constructed so they will be able to reference cases during the course of their duties. This is an excellent refresher for any officers that have attended the Narcotic and Criminal Interdiction, Street Smart Cop, and Pro-Active Patrol courses. A great course for all divisions and rankings in police departments throughout the state! You will feel much more confident and have a lot of lingering legal questions answered after this training.
