This dynamic and immersive training will focus on sovereign citizens and their rapidly increasing problematic contact with all forms of government, with a specific focus on interactions with law enforcement and criminal justice personnel. Basic awareness of this growing threat and how it will directly impact the daily duties and responsibilities of law enforcement and other government entities will be discussed at length. Attendees should expect a general “indoctrination” into the sovereign citizen movement to help further awareness, recognition, and mitigation of this unconventional and bothersome problem.

Additionally, a portion of training will cover “First Amendment Auditors” and their increasing contact with law enforcement and government officials around the United States.

Topics Covered and Course Focus:

- Attendees will be taught to recognize common militia ideology, activity, tactics and symbology
- Anti-government views pertaining to gun and land rights issues will be discussed at length in an effort to help law enforcement understand how these topics will impact their daily duties and responsibilities
- Learn the fundamental principles of the sovereign citizen movement, including their ideological beliefs, pillars, doctrines, tactics, and goals
- Identify possible sovereign citizens through language identification and document recognition
- Paper Terrorism through false liens and lawsuits
- Courtroom behavior
- Best practices for professional and safe encounters when confronting, interviewing, or investigating sovereign citizens
